the real tupon God in svery time of any friend, I don't know what your indicates I don't know what your indicates I don't know what your indicates I don't know what you indicate indicates I don't know what you indicate indicates I don't know what you had done for me, indicated the property of the season of the property of the season of they meant; we know tonight what mean. And if a man has been called thousand times, and if he heard all to calls, and he has understood all those as, then listen what God says: "Because are called and ye have rerused, I have tened out my hands all the day long, no man regarded." Now listen: "I will taugh at your calamity. I will k when your fear cometh." It is said God is His own interpreter, and He make it plain; but, brother, in all my wledge of the Word of God I don't w of, but one verse of scripture that was any light on that: "I also will laugh your calamity. I will mock when in fear cometh." and that verse of scripture that throws light on this verse is one hat throws light on this verse is one of scripture that 1 could never get aind up to the sticking point where it my mind up to the sticking point where it could preach from that verse, and I never heard as ermon on that verse of scripture. I never heard as ermon on that verse of scripture. I never heard any man preach a sermon on that text of scripture, and it's one of the ten most quoted verses: "What measure you mete sinall be measured to you again." Listen! Here in Los Angeles tonight, and somewhere else last year, and somewhere else last year, and somewhere else the year before, God called and you refused and you laughed and you scoffed; and now, when the world is on fire and you thand defenseless before the great white throne, and you call and you plead and rou beg; then God says Himself, "What measure you meted to me on earth I measure to you again. You laughed and scoffed when I called you in time, and now when you call to me, what measure you meted I ome to have you, and I laugh at your calacuity, and I will mock when your car cometh." Oh! what an awful thought. Let me say, my brother, by the grace of God I am going to treat the Lord tonight like I want him to treat me when the world so on fire. God calls tonight, and God pleads tonight; I hear tonight, and God pleads tonight; I hear tonight, and God pleads tonight; I hear tonight, and Hoey on got the final judgment, when I call and I plead, then God says to me: "What measure you mete I will measure to you again. You heard and obeyed in time. Now I will hear your prayer and cry and come to your rescue and give you everlasting life." Thank God for these good providences and hese blessed calls which we hear tonight. I have stretched out my hand no man recarded. I also will laugh at your calamity; I will mock when your fear cometh." There so but one incident in all my memory tonight that illustrates this very thought before us—"I will laugh at your calamity; I will mock when your fear cometh."—and that incident was given to me by one of our old preachers in Georgia. He said that he was a pastor in a town of some two or three housand inhabitants; and just out a little

debauchery of the son on the one hand, and such kindness and goodness manifested on the other. And this went on, day after day and week after week—the father just emptying wery blessing upon his son, and the son emptying a debauched, ruined life back on the father's heart. And on it went. And one day this father drove into town, hitched his horse and got out of his buggy and started to the postoffice; and just as he walked along toward the postoffice the drunken, debauched boy met his father and took hold of him rudely and struck his father and abused and bemeaned him at a fearful rate. And he said the old man wrung himself loose from his boy and walked back to his buggy and got into his buggy and drove home. And when he drove up to the front door of his house, in the great grove he hitched his horse, and he was seen to go to the farthest boundary line of the large grove, and there stood still a moment. He took off his hat and three

to our capiain: "Sir, what are those ships waiting for? They are loaded, what are they waiting for?" He said: "They are waiting for favorable breezes that will carry them oceanward." I said: "How long before the breezes will come?" He said: "Sometimes twenty-four hours and sometimes three weeks, but they must stay until the breezes come." My countrymen, let's you and I load down ourselves with complete surrender and consecration to God, and anchor out close to the lighthouse, and before daylight tomorrow morning God will send the favorable breezes that will carry us out into the ocean of life and peace and joy. God grant that such may be the inheritance in every mind in this audience tonight. 

and consecration to God, and anchor out close to the lighthouse, and before daylight to comorrow morning God will send the favorable hat, walked back quietly to his home. And in a few minutes the drunken boy come staggering up on the steps, and the father heard the staggering up on the steps, and the father heard the staggering up on the steps, and the father heard the staggering up on the steps, and the father heard the staggering up on the steps, and the father heard the staggering up on the steps, and the father heard the staggering up on the steps, and the father turned him around and said: "Off these premises—you are no longer my boy—forever." And the boy went back to town, he said, and six days afterwards ded in a drunken debauch, and his father never attended his funeral or asked a question about him. That father, down in that rove that morning, took that boy and pulled him up out of his heart and cast him out forever. Oh, how that reminds me of Jesus Christ as he stood on the mountain and coked over doomed Jerusalem, and said: "Off THE TIMES.] We would like to ask if Sam Jones's Christianity is the same kind that made Stonewall Jackson pray every morning for God to help him for Christ's said that stonest the prophets, how oftworld I have gathered you together as a len gathereth her brood under her wing, and you would not. Behold, your house is left unto you desolate." I believe mercy knows the appointed bounds, and turns to very the stage of God Almighty I will not be one of them. I have made up my mind, for our same of God almighty I will not be one of them. I have made up my mind, for our able breezes that will carry us out into the close of the lather have the stagering the decand in this aniested. The prophets have a question of the adeline to the father have read in the adeline to the father have read to the f an. God has thrown these means of between some man and his wreck and all the some man and his wreck and the some mothers, "My boy is in Los es. My son is there. Hunt him up, good, noble boy to his mother. Tell am praying for him, and, above all in heaven and earth, the best would truy boy is brought to Christ." published in THE TIMES of Wednesday, a few mistakes were made concerning Inyo county. It was there stated that the area of Inyo county is 19,500 square miles; the correct figures are 10,500 square miles. It was also stated that the distance from Independence, the county seat of Inyo, is 100 miles farther to San Francisco than to Los Angeles. From Independence to San Francisco the distance is 556 miles, while to Los Angeles the distance is 550 miles, while to Los Angeles the distance is but 250 miles; difference in favor of Los Angeles, 306 miles. This would be a very great difference in favor of Los Angeles supplying Inyo county with all kinds of merchandise, and all that is necessary to secure the trade for Los Angeles is to build a line of 121

In the report of the proceedings of the convention held here last Tuesday, and ombilished in The Times of Wednesday,

TO THE SEA.

THE SEWER QUESTION AT LAST DECIDED,

and the Outfall Will Be Built in Sec tions of Four or Five Miles at a Time—Councilmen and Citizens in Conference.

Yesterday morning the Council met in special session for the purpose of discussing the sewer question and various propositions to take care of sewage of Los Angeles. A delegation from the Chamber of Commerce was present and was given

President Kuhrts called the meeting to order and the roll was called, showing that the following members were present: Threlkeld, McNally, Wilson, Cohn, Shafer, Ford, Bosbyshell, Humphreys, Hanley,

The Clerk stated that he was in receipt of several communications on the sewer queson, and on motion of Councilman Threlkeld they were ordered read.

The first was from the Stowell Cement Pipe Works, and contained an offer to lay a good and serviceable cement pipe of suffient capacity to carry 1000 inches

Pipe Works, and contained an offer to lay a good and serviceable cement pipe of sufficient capacity to carry 1000 inches of sewer matter from the southwest part of the city, upon the Santa Monica Railroad, a distance of 70,000 feet to the ocean, for the sum of \$150,000.

Reid & Co. made a supplemental proposition to the effect that they would build an outfall sewer of any kind desired to a point about two miles south of the city, secure a right of way for the same, and purchase a piece of land sufficient for terminal purposes, and to secure from the owners for a term of years about 4000 acres of land, with an obligation to take all the sewage of the city, and to pay for the same at the rate of \$2.50 per acre per season. The estimated cost of the sewer to be about \$3.50 per lineal foot.

The Pacific Sewage Company also offered a new proposition, to the effect that the company, for the sum of \$1, would build and construct to completion the entire system of sewers, as detailed by Mr. Eaton, provided that an ordinance be passed compelling every residence and hotel and store to connect with the sewer, and another passed fixing the rates of ren'al per year, to be paid said company quarterly, for the disposal of the sewage matter, at rates not to exceed 60 cents per room. All business houses, hotels, livery stables and other places nor residences to have rates fixed hereafter by the Council and the Pacific Sewage Company. All those who have already paid for sewers to pay no rental until the amount so paid be liquidated by rentals. Provided that the present system be turned over to the Pacific Company for a term of 50 years, with a right for the disposal of all sewage for the same term without any cost to the city of Los Angeles. The company also agrees to run the system under the supervision of the Board of Health and to-turn the entire system over to the city at the expiration of 50 years, free of all cost or remuneration.

These were all the new propositions presented, and the discussion of them was then deelared in

plished.

Mr. Cohn gave a short account of the various systems considered by the Council, and stated that while an outfall sewer would be best the Council had seen fit to reject such a proposition. He referred to his scheme made public last July, and expressed a wish that it had been carried out at that time, when it could have been done for \$250,000. He referred also to the last proposition of the West system, and said the people would never submit to being taxed a rental for use of a sewer system.

Maj. E. W. Jones stated that he was there for the Chamber of Commerce, but did not think it advisable to talk on the subject at present until he had heard what was before the Council.

Mr. Cohn, in answer to Mr. Humphreys, stated that the Eaton plan had been regularly adopted by the Council and could not be improved upon as an outfall sewer, although it was a very expensive system.

Mr. Humphreys called on Mr. Eaton to see if Mr. Cohn's statement was correct. The maps of Mr. Eaton's system were then brought in, and Mr. Eaton gave an account of how it had been prepared. He also stated that the sewer could now be built for considerable less than when he made the estimate, on account of the lower prices asked for bricks. He said the bricks then cost \$25 per 1000, now they could be bought for \$20. He said his estimate had been made on the basis on the idea of getting the right of way for nothing and a bonus of \$100,000 in the bargain.

building an outfall sewer, and then it could be used or not. Just as the city desired. He gave a description of the system he designed last year; and showed that there were large parcels of land along his right of way whose owners wanted to get the sewage, and would give a right of way.

M. L. Wicks, one of the Chamber of Commerce delegates, stated that he was strongly in favor of an outfall sewer to the sea. He said the West system was nothing but a big cesspool, and the idea of establishing such a thing in the city should never be entertained. An outfall sewer was what was necessary, and if properly handled it would with the water pay the expenses of the city government. If the sewage could be sold, sell it, but in the winter when the land is saturated, carry it out to sea and be free from its unhealthy influence. He advocated cement pipes of an oval shape, and urged the city not to part with the control of the sewage matter.

Judge Stevens made a short speech on the question and strenuously advocated an economical system, one that would be carried out without the need of the issuance of bonds. He thought the river was the natural route for a sewer from the city to the sea, and that a covered sewer could be cheaply built as far as is necessary, and then conducted the balance of the way in open ditches, and sell it to those who wish to purchase it. There are thousands upon thousands of acres by this route which would take three inches per acre and use it all through the summer and render fertile lands which are now no better than sand beds.

Mr. Ryan, representing Reid & Co., was then given a hearing and he agreed the

all through the summer and render fertile lands which are now no better than sand beds.

Mr. Ryan, representing Reid & Co., was then given a hearing, and he presented the claims of the company he represented. He said he had seen a filtration system tried for 10 years, and it had been a flat failure in every instance. No matter wh t precautions were taken, the filtering beds became a nuisance and had to be abandoned. He then explained his proposition in detail, and asked the Council to adopt it.

J. C. Daly, ex-City Attorney, made a speech in favor of a sewer system which would result in taking the sewage to the ocean. He said that nearly all the propositions made before the Council were in conflict with the laws of the State and they counted for nothing. He then spoke of the various propositions and finally advocated the adoption of the Fred Eaton system, which he said had been examined by a number of sanitary engineers and declared perfect. He declared the city could not give away its sewage matter inside the city or outside the city. The sewage should be sold by the city to fertilize lands between here and the ocean, and, when it was not needed, to send it into the ocean. He wanted to enter into competition to build the sewer, but he did not care a zent which system is adopted, so that it is a sewer system. This system should be taken in hand at once and give us a sewer to the sea.

Mr. McNally moved to refer all propositions to the specual and standing sewer committees.

Mr. Humphreys said it was too important for this manner of disposing of it, and he was willing to sit here all day today and all day tomorrow until some course of action had been determined upon. He moved to adjourn till 1:30 this afterneon.

Mr. McNally's motion was then put and lost, and the Council then adjourned until 2 o'clock.

Afternoon Session.

The Council met promptly at 2 p.m., and the roll was called. Mr. Threlkeld thought it would be impossible for the body to come to any definite understanding, but Mr. Humphreys objected to any stay of pro-ceedings, and the Council proceeded to enter into a discussion of the matter.

Mr. Morris, secretary of the South Side Irrigation Company, was invited to address Mr. Morris, secretary of the South Side Irrigation Company, was invited to address the Council. He thought the outfall sewer should be built along the course of the Los Angeles River, for the reason that there is a gradual slope to the sea, and it can be built in sections, while if the outfall is to Santa Monica. It will have to be built at once, and it will cost a great deal more. The river course is a natural course, and will not cost \$1,000,000, as will the other to Santa Monica. The land south of the city will take care of the sewer water for some years to come, and will not cause a nuisance for a long time. To this point the sewer can be built for about \$75,000, and it serve the city during the next five years. The city must look to the ultimate outfall to the sea, and for that reason the pipe must be large enough to serve a city of two or three hundred thousand population.

The speaker said the system of building sewers by sections was begun 12 years ago. A few sewers were built, and the water was run into the zanjas, but when the water began to takeken the people objected, as some of them drank the water, and of course they kicked. "In some ways," said the speaker, "I think the water is good for the health of children. Some of our children were taken sick, and the neighbors claimed that the sewer water was the cause, but an investigation showed that the children who played in the water were not taken sick, while those who kept away from the water were the ones that were taken sick," it is not bjurlens to the health of people living on land that is filtered from sewers.

How Men Die.

If we know all the methods of approach adopted by an enemy we are the better enabled to ward off the danger and postpone the moment when surrender becomes inevitable. In many instances the innerent strength of the body suffices to enable it to ppose the tendency toward death. Many, however, have lost these forces to such an extent that there is little or no help. In other cases a little aid to the weakened lungs will make all the difference between sudden death and many years of useful life. Upon the first symptoms of a cough, cold or any trouble of the throat or lungs, give that old and well-known remedy—Boschee's German Syrup a careful grial. It will prove what thousands say of it to be, the "benefactor of any home."

### LIEVA'S TRIAL.

A NEW PHASE OF THE CASE BROUGHT OUT.

Fired-The First a Little Louder Than the Others - Evidences of Some Crooked Swearing.

Frank Lieva again took the stand yesterday morning in Judge Cheney's court to testify in the case of David Lieva, on trial for the murder of Pedro Lopez at Verdugo Cañon on October 14th last. The defense resumed the cross-examina

tion of the witness, but nothing of interest was brought out.

The next witness was RAQUENA VERDUGO, a resident of Verdugo, who said he was at the saloon in that town on October 14th. There were several men there. The dethe saloon in that town on October 1sth. There were several men there. The defendant came up in a buggy. A cousin of his was with him. The defendant, in a few moments, said that he had a game cock that he wanted to match for money. The witness and others said they had no birds fight. The witness became disgusted, and said those present were without means or sand, and began to use vite ingusge. A fist fight followed. The witness tried to pacify the defendant. The latter then went to his buggy, grabbed his double-barreled shofgun, and pulled both trigers. Neither barrel was decharged. He then advanced on the witness then pulled his own un and fired. The shot did not hit him. The defendant then returned to the wagon and loaded the gun with powder and slot, at the same time he intended to shoot the witness, or Lopez or Olievas, or all three, before he left the place. He returned to the saloon and looked through the windows, as though to anapped the gun again at the witness, who reireated to a rear room. The defendant ran around the building gun in hand, and looked through the windows, as though to a house when Lopez was shough to a house of the wagon. He called the saloon and looked through the windows, as though to a house of the wagon and looked through the windows, as though to a house of the wagon and looked through the windows, as though to a house of the wagon and looked through the windows, as though to a house of the wagon and looked through the windows, as though to a house when Lopez was shouth to a house close by. The witness walled. He witness se vidence on any material facts. José Olevez was placed next on the stand. José Olevez wa

was resumed at 1:30. "Defendant took a shotgun out of the wagon. He called everybody ———, and struck at the deceased with the gun at Raquena Verdugo. He then tried to fire off his gun, but the caps snapped. Verdugo fired at defendant, who then loaded his gun again outside the saloon. Louis Lieva, defendant's cousin, was in the buggy. I saw defendant load the gun. When he came up with the gun we all ran behind the bar. I soon left the saloon. Pedro Lopez was there when I left, I went home then. Didn't see defendant again that day. Saw deceased after he was killed. Heard only one shot. I saw deceased dead about one minute after the shot was fired. I don't remember who was there when I saw deceased."

On cross-examination, the witness was questioned at length about different distances about the scene of the shooting. He said: "I don't think either defendant or deceased were drunk that day."

the next witness, testified: "Saw the defendant at Verdugo Cañon on October 14th Several applications for positions on the fendant at Verdugo Cañon on October 1stillast. It was past 10 o'clock. He drove up in a wagon with another man to Hermann's saldon. Defendant entered the saloon, took a drink, and said he had a rooster he wanted to match. Pedro Lopez said no one had any roosters to fight, and he then called everybody vile names. A dispute took place between defendant and deceased. Deceased struck Lleva twice. Olevez separated them, and struck defendant twice. Defendant staggered out of the door. Raquena Verdugo went out and disputed with defendant, calling each other names. Raquena said he didn't want to fight, as he did not want to go to jail. Defendant took a shotgun out of the buggy and cocking the gun tried to discharge the gun at Verdugo. The caps snapped and the saloon, Defendant, while we were in the saloon, got very angry and told his friend to unhitch the horse, as he was going to stay there. Then he struck the ground so hard with the gun that it was broken. That is, the but was broken off. Both got into the buggy again and drove off. After they drove down the street they met Frank Snee near Lopez's house. I saw them stop. I heard some shooting. Lieva did the shooting, but I don't know how many shots he fired. He was in his buggy. He fired in the direction of Lopez's stable. Betore the shooting I saw

It was the general impression that Paculty should be rowided in the discharge of his duty, and that something should be offered and they are the saloud took of the head.

A petition was received to he hay or all the saloud provided to last. It was past 10 o'clock. He drove up

drove off quickly. When I reached Lopez he was dead. Frank Snee was there when I came up. Saw nobody there but Snee when I came up. Others came up, too, but I don't know who they were. Saw the wound in deceased's breast. Saw no weapon in his hands or near him.

On cross-examination: I think I heard two shots when defendant fired at Lopez, but am not sure one may have been some other noise. When I saw deceased he was sitting down with his hands in frent of him.

Also reported that he had put on Gildden and Jennings as specials, and this action was approved.

The usual bills were presented, approved and ordered paid.

The application of O. D. Buck to be appointed a special officer for East Los Angeles without pay from the city was denied.

The matter of special officers was discussed at some length, and the Chief was lost the finance Committee, and if it would allow it, he could put on as

him.

I don't remember talking about this case with Frank Snee. Have not been in a saloon with Snee today during recess. Now, as I remember, I did go in, but I was called in by others. Snee came in later on. The witness was then questioned about his testimony at the preliminary examination, where he testified that he heard two shots first and then one soon after. Didn't talk with Snee in the saloon."

To a juror: One of the first two shots was louder than the second. The second shot was the loudest. The last shot I heard when defeudant was about three-quarters of a mile away.

H. COHEN, a storekeeper at Verdugo, testified: Saw defendant on October 14, 1888, in the saloon across the way from my store. Heard &-fendant say he'd kill Lopez, Verdugo and Olevez. He knelt down and said so. He swore by the sun and trees that he'd kill all the three or any of them. Heard the shooting, but did not see it. MANUEL VERDUGO,
the next witness, testified: "Live at Verdugo ranch. Knew Pedro Lopez. Was in Verdugo October 14, 1888. I heard the shedting. Only heard one shot fired. Saw defendant after the shooting in front of the saloon. He was in his buggy. Before the shooting I heard him use very abusive and fifty language to everybody in the saloon. Isaw him take a gun from his buggy and fire at Requena Verdugo from behind, but the gun didn't go off. Heard him say that he intended to kill Lopez, Olivez or Verdugo that day. anything disorderly about the place, and the Mayor saying that the city needed the money.

The application of Frank Tool for a saloon on Requena street was denied.

A bill was presented against ex-Officer Van Luven, but as he was no longer on the force the matter was laid on the table.

Edward Flood applied for permission to carry a revolver, which was denied. Charles Lehmer's permit was renewed.

Several applications for positions on the force were received and placed on file.

The case of Max Pacully, the cierk at the hay market, who was recently removed, was brought up, and Mayor Bryson made a statement in regard to his case, saying that the man had been injured in the discharge of his duty, and that something should be done for him. It was the general impression that Pacully should be provided for, and the Mayor said that he would see if Mr. Brown could not be induced to reinstate him in his old place, as he could not do hard manual labor.

A petition was received from the proprietors of the drug store at the corner of Fort and Second streets, asking that the telephone company be compelled to remove the pole at that corner, which is a nuisance and an obstruction. The matter was referred to the Street Superintendent, with instructions to have the same at once abated.

The matter of the houses of prostitution on Alameda street came up on petition of

geles without pay from the city was denied.

The matter of special officers was discussed at some length, and the Chief was instructed to see the Finance Committee, and if it would allow it, he could put on a many men as he needed, as there were plenty who wanted to work.

The obstruction of the sidewalks was discussed, and the Chief was instructed to see that the ordinance was strictly enforced. The Mayor also called attention to the crowds attracted by the street fakirs, and the Chief was instructed to always keep the sidewalks clear.

The soil is a deep, rich, sandy loam. An increasuable supply of water. Mr. Milton Thomas and Mr. Byron O. Clark, the well known and experienced nurserymen, have purchased large tracts of these lands and planted them to orchards. They regard them as the very best lands in Los Augeles county for the oultivation of all kinds of deciduous fruits, olives and English walnuts, and owing to their near proximity to Los Angeles city, the obsepact lands is outhern Criifern: a at the price they are now offered. It costs nothing to examine these lands.

THE TIMES Annual for 1889 is now on male to the trade and the general public. It kstores, or singly and in quantities at the TIMES office.

It is a 56-page publication, equivalent in alk of contents to a 200-page book, chock full of valuable and interesting matter. It is specially adapted for sending to friends at a distance, who desire information regarding this section, its compilation having en undertaken with special reference to this purpose. The sending of one copy is better than the writing of one hundred letters. It contains a carefully prepared stateent of Southern California's many advantages and few drawbacks, together with a complete exposition of our resources.

Following are the prices of the Annual: ingle copies (in wrappers, postage 

nual is two cents for each copy. This can be saved by ordering through the office, which pays on the matter by the pound.

STANLEY has been heard from at last. His letter is rather stale, being dated August 17th, at which time he was in good health.

A DISPATCH from Arizona confirms the need of caution, as already urged by THE TIMES, in relation to the newly-discovered gold bonanzas of Yuma county. The claims are said to be petering out, and there is great suffering among the men now there.

A DISPATCH announces that the nonks of La Grand Chartreuse have en offered by a London firm \$15,000,-000 for a monopoly of the manufacture of the Chartreuse liquor, which is now ade only at the monastery. The holy onks must be coming money out of their schnapps to get such an offer for its exclusive handling.

THE German Government complains that the Samoan forces which whipped them were led by an American citizen named Klein. Klein is a reporter for TIMES.

THE railroads say that less tourists and health-seekers are coming than last year by 60 per cent. Of the remaining 40 per cent. a large proportion go up north. This fact may prove to be a blessing in disguise, if it leads us to go to work in earnest. A city of nearly 100,000 inhabitants can't live on winter visitors, and the sooner we realize this this fact the better.

PIXLEY of course comes out in the Argonaut in defense of Huntington's proposition to make a Chinaman Emperor of America, if the idea emanated from Fourth and Townsend streets. Sam Iones the Reverend

During the past quarter century a ast change has taken place in educa tional methods. Attractive lessons pleasantly given, have replaced gloomy and protracted studies. The same is true in regard to religious teachings. The long, dry sermons, rigid with hard, indigestible doctrinal points and running to "thirteenthly," or even further, have given way to well rendered, attractively prepared statements of Bible truths, illustrated with appropriate an-

ecdotes and examples.

The popularizing of religious teaching has been carried further, during the past decade, by such agencies as Moody and Sankey and the Salvation Army. Many who are unable to approve of all the methods adopted by these people are cheerfully willing to waive their objections, in view of the fact that zeal is ever present, and that permanent results of a good character not infrequently follow. Moreover, it is remembered that Christ himself when speaking to the "common people," clothed the great truths which he inculcated in parables.

The success of this method of teaching has emboldened others to pursue a similar line of action still further-so far, indeed, that sensation and slang, instead of being utilized as the incidental spice of a discourse, have become its main attraction, and the occasional smile has been replaced by a standing grin. The leading exponents of this class of religious buffoonery are two persons, who each bear the name of Samuel-Small and Jones. They are each, we believe, regularly ordained ministers of the Methodist Church. Mr. Jones is at present in this city, and has been drawing almost as large audiences as did the last circus which appeared here. It should be noted, however, that he charges no admission fee.

Mr. Jones's method, as far as he has made it apparent in Los Angeles, is a very simple one. It is to raise a grin on the part of his audience, at any cost. To this end, he is willing to sacrifice propriety, reverence and courtesy, to the great glee of those who go to enjoy a free barlesque, and to the deep sorrow of all whose most sacred recollections are associated with the "sweet story of old," as reverently learned by the knee of a loving mother. We can not believe that such clerical mountebank business can be productive of good. It will excite amusement in the minds of the unthinking, disgust in the minds of reflective men, but permanent

conviction—never.

Both Messrs. Jones and Small are creations of the newspapers, which have encouraged their eccentricities and continually incited them to outdo their previous efforts by publishing every fresh piece of irreverential slang or incipient blasphemy which they uttered. The press will probably con tinue to keep them before the public until some more daring exponent of the same school shall go a little further and introduce some more striking features of the hippodrome. Messrs. Jones and Small will find themselves eclipsed, and will perhaps realize, when it is too late, that it was not the truths they uttered, but their own verbal gymnastics, that attracted their hearers.

The fact that Mr. Jones is capable of better things will be palpable to all who take the trouble to compare the verbatim report of his discourse, delivered last night, with his previous utterances while in this city. The force of this sudden and marked ref ormation will be realized when it is bserved that this discourse is clean, decent, reverential, and clothed in good, pure English, utterly devoid of slang. Whether the fact that Mr. Jones was aware of the presence of TIMES shorthand writer i eastern papers. His brother is attached to the reportorial staff of THE revolution, we are unable to say. In any case, we congratulate the gentle man from Georgia on the change, and trust that it may prove a permanent one. We also congratulate his audi-

THE next Grand Jury ought to find out where that \$97,000 have gone, which is supposed to have been spent on roads in this county. There is a great deal of dissatisfaction among taxpayers at the manner in which the county funds have been expended. Let us take up one specific case and investigate it thoroughly. For that purpose, the road fund is as good as any other. So much money has been spent. What is there to show for it?

There has been talk for some time past about the crooked transactions of one S. Jackson, who held the position of shipping clerk at Harper Reynolds & Co.'s for some time until the was detected in several forgeries, when he was discharged and the matter hushed up by Jackson making good his peculations. lot of forged checks has come to light, and the case is now in the hands of Detective A. B. Lawson, who is working it up. Jackson came to this city from Denver, Colo., some months ago, with his wife, and has since been living here. He is supposed to be the same Jackson who figured in a big scandal at Kansas City, where he defaulted to the amount of \$17,000, which was made good by his father-in-law to save exposure. The Kansas City Jackson afterward left his wife and took up with a notorious adventures, with whom he left that place. The affair caused a good deal of comment at the time it occurred, and Jackson's record will be looked up to see if he is the same man.

A RELIGIOUS MANIAC

Locked Up at the Imminent Peril of the World

Last night about 10 o'clock a wild-eyed young man was brought to the police station by a venerable Catholic priest, and turned over to the authorities as insane. The priest said that the man had been sent to the station by Bishop Mora, who knew nothing about him beyond the fact that he said his name was V. J. Coobler, and that he nad come to the Cathedral yesterday and remained the greater part of the day. He had deposited \$20 with the Bishop, and had a letter in his pocket addressed to Mrs. Mary Lavin. No. 1001 Crosby street, Rock-ford, Ill. The man was evidently crazy on the subject of religion, and when he was about to be locked up he made a big kick, about to be locked up he hade a big slow, saying that his incarceration meant the destruction of the world, and that everything depended on his catching the train. He was finally locked up, and his relatives will be communicated with.

WASHINGTON, Jan. 16.—[By the Associated Press.] The correspondence referred to in President Cleveland's message, transmitted to Congress yesterday and presented to the Senate today, opens with a letter from Mr. Blacklock, Vice-Consul of the United States at Apia, giving a record of current events in Samoa from November 7th to 27th. The substance of these records. have been published in the press dispatches from time to time. They gave an account of the fights between the rival factions, and the Vice-Consul's views on things as they orders to Admiral Kimberly.

Next are given the following instructions o Admiral Kimberly from Secretary Whitney in a cablegram dated January 11th:

to Admiral Kimberly from Secretary Whitney in a cablegram dated January 11th:

"Commander Mullan of the Nipsic telegraphs by way of Auckland, N. Z., that a
force landed at Samoa from the German
fleet, which resulted in an engagement between the troops of Mataafa and the German forces, and the defeat of the latter. He
reports that the Germans, in retaliation,
bombarded the towns, disregarding protests and natural rights and that the lives
and property of American citizens are in
danzer. He strongly urges the sending of
reinforcements. The German Government
claims that the German forces were
first attacked, and that war now exists between Germany and that portion of the natives of Samoa engaged in the attack upon
the Germans. The German Government
has invited this Government, in common
interest, to join in establishing order in
Samoa, giving assurance of careful respect
for our rights. The United States Government is willing to cooperate in restoring order in Samoa on the basis of full preservation of American treaty rights and Samoan
attonomy as recognized and agreed to by
Germany, Great Britain and the United
States, and has so informed the German
Government. You will at once proceed to
Samoa, and extend full protection and defense to American citizens and property.
You will consult with, the American Vice-Government. You will at once proceed to Samoa, and extend full protection and defense to American citizens and property. You will consult with the American Vice-Consul, examine his archives, and otherwise inform yourself as to the situation and recent occurrences. Protest against the subjugation and displacement of the native Government of Samoa by Germany as in violation of the positive agreement and understanding between the treaty powers; but inform the representatives of the German and British Governments of your readiness to cooperate in causing all treaty rights to be respected, and in restoring peace and order on the basis of recognition of Samoan rights to independence. Endeavor to prevent extreme measures against the Samoans, and to bring about a peaceful settlement. If such arrangements can be made upon that basis, you will report the same for approval, and you will report the same for approval, and you will report the same for approval, and you will inform the Government as soon as possible after your arrival in Samoa of the condition of affairs and prospect of peaceful adjustment, and whether Germany was acting impartially between the opposing forces when the late conflict occurred.

GERMANY'S COMPLAINT.

Secretary Bayard has addressed a com-

GERMANT'S COMPLAINT. Secretary Bayard has addressed a communication to Count Arco, German Minis

munication to Count Arco, German Minister, in reply to his statement giving the German version of the Samoan difficulty. The statement of Count Arco is substantially as follows:

The German forces landed at Samoa after the German commander had given notice of his intention to the commanders of the American and British men-of-war. The reason for landing was that some German plantations were in danger. Upon landing the Germans were attacked by the Samoans under command of Kiein, an Samoans under command of Kiein, and American citizen, and lost 50 killed and American citizen, and lost 50 killed and wonned. A state of war was therefore announced by Germany, and, as an American is alleged to have been in command of the attacking Samoan force, Count Arco is instructed to make complaint to the United States. The treaty rights of the United States and all the rights of the treaty powers shall be respected under all circumstances. The German Government asks them to join in a way to restore calm and quiet.

BAYARD TO COUNT ARCO. coming aware of the allegation that the Samoan forces were led by an American named Klein, that he had no knowledge whatever nor reason to believe that Klein was a citizen of the United States. "It is certain," continues the Secretary's letter, "that he is not and never has been in any way connected with its public service while acting under color or pretense of its authority. The instructions given to officials of this Government at Samoa have never deviated from those made public and which were well-known to Germany and Great Britain; Po-maintain neutrality in Samoan affairs, and continue their action to good offices in the maintenance of peace and order in these islands and securing protection for American citizens and their interests."

The Secretary says that before he recoming aware of the allegation that the

order in these islands and securing protection for American citizens and their interests."

The Secretary says that before he received the German invitation orders had been given by the President looking to the protection of citizens of the United States and their property; that it was with entire readiness that he accepted the invitation of Germany that the United States "join in active work to restore calm and quiet to those islands."

The Secretary further says: "I received also with expressed satisfaction your assurance of the intention of your Government to maintain carefully and respect the treaty rights of this Government under all circumstances, and this, as I stated to you, necessarily included respect for the existence of Samoan autonomy, which is the basis of the three treaties made with the United States, Germany and Great Britain, the first-named being the earliest is date. The protocols of the conference on Samoan affairs, held in this city in the summer of 1887, by representatives of the United States, Germany and Great Britain, will disclose that although the conference duot plan of government for that community, nevertheless on certain points all three governments coincided. One of these was the free election by the Samoans, according to their own will and custom, of a king.

the free election by the Samoans, according to their own will and custom, of a king.

A REMEDY SUGGESTED.

"It would seem most opportune if such an election could now practicably be held, and I feel assured it would do much towards ending the turbulent, bitter discontent which has led to the shocking internecine warfare among these islanders, and has finally involved them in the deeply-regretable conflicts with the German forces, which are sincerely deplored by the United States. Rear Admiral Kimberly, commanding our naval forces in the Pacific, has been ordered to proceed in his warship Trenton to Apia. I have confidence in his wisdom and benevolent discretion, as well as in that of the naval-commanders of other national vessels which have been sent by their respective governments to Samoan waters to promote satisfactory arrangements, and I take it for granted that the same spirit of comity and perception of the equal rights of all three treaty powers which induced your Government to invite the active cooperation of the United States in restoring law and order in Samoa will cause instructions embodying the same principles of friendly justice and consider-

to time set forth. In the correspondence of Jawuary 17th last the views of this Government were fully conveyed to the Government of Germany by my instruction of that date to our Minister at Berlin, and have since that time undergone no change, and no intimation of dissent therefrom by the Government of Germany have since that time been received."

COMMANDER MULLAN'S REPORT. COMMANDER MULLAN'S REPORT.

In a communication dated Apia, December 3d last, Commander Mullan describes to Secretary Whitney the attack of Malietoa upon Tamasese's strong fortifications just back of Lutuana, and his success. The Commander says: "It is apparent to the thoughtfui and unprejudiced mind that the aspirations of the Samoan people for a liberal and progressive government are incompatible with the German ideas of government in Samoa. After their numerous internal wars and revolutions, the party of liberal opinions would be triumphant were they not interfered with by outside influences and by the presence of German meanfun sarbeast of their fortifications as a daily reiterated menace and warning, especially so on the eve of battle."

AN ALARMING MESSAGE.

On January 5th Vice-Consul Blacklock telegraphed as follows to Secretary Bayard via New Zealand:

"Three German war ships, having undertaken to disarm Mataafa, landed at night a force to prevent his retreat. Mataafa's men fired on them and forced a fight. The Germans were routed. Twenty were killed and thirty wounded. The Germans swear vongeance. They are shelling and burning indiscriminately, regardless of American property. Protests are unheeded. The natives are exasperated. Foreigners' lives and property are in the greatest danger. The Germans respect no neutral territory. Americans in a boat flying the American flag were seized in Apia harbor by an armed German baat, but were released. An admiral with a squadron is necessary immediately."

It was not true that a majority of the people of Utah had long defied the authority of the United States, as expressed in its statutes, by practicing polygemy. A majority of the people of Utah did not practice polygamy. The opposition, he says, coming from the Territory is fomented and kepf alive by unserupulous, ambitious men. Regarding the kinds of fruit shipped, it was said that apricots did much better than in the year preceding. Bartlett pears sold slow, being received in the East extremely green. Peaches sold well; even medium sized freestones are much preferred to large clingstones. Prunes and plums did not sell as well as last season. Grapes sold remarkably low, owing to poor condition. Fall and winter pears were low and did not keep well. Late pears sent to the extreme East did well.

The prune shipments to Chicago netted the grower 3.5 cents per pound; to New York, 2.5 cents. Cherries to Minneapolis netted 8 cents; to New York, 9.9 cents. Peaches to Chicago netted 2.7 cents; to Boston, 2.6 cents. Grapes to Boston netted 5 cents. Nectarines to the same point, 6 cents. Apricots to Chicago, 3.8 cents; to New York, 3.6 cents.

The special trains made good time, but the freight service was unsatisfactory. A difficulty in making proper arrangements so that Boston and New York may secure, a continuous supply of fruit was remarked.

A Letter from Txplorer Stanley-Zanz bar Native Massacre German Settlers—The Carthusian Monks Offered an Immense Sum for the Secret of Their Cordial,

Bu Telegraph to The Times.

BERLIN, Jan. 16.—[By Cable and Associ ated Press.] In accordance with the command of Emperor William, Reichs Anzel ger today publishes the indictment that was nst Prof. Geffeken, in order that the people may be enabled to form their own judgment regarding the administration of justice in Germany. Prof.Geffeken's letters, which are appended to the indictional control of the con ment, cover the period of 1875 to 1887, and are marked throughout by hostile criticism of Bismarck and his policy. Morier is frequently mentioned in the course of the correspondence, the references to him showing that he was in the confidence of

sorrespondence, the references to him showing that he was in the confidence of the writers. Prince Bismarck has submitted to the Bundesrath all documents used during the judicial inquiry.

\*\*Reichsanzeinger\*\* also publishes Prince Bismarck's report to Emperor William, in which he points out the necessity for publishing the indictment in order to counteract the effect of misrepresentations of home and foreign journals, which, he says, alm at representing the public prosecutor and imperial tribunal as being partial and inspired with a desire for persecution.

The indictment says that Geffeken admitted that it was unlikely that Empress Frederick would have given permission to publish the diary. The indictment also says that Prof. Geffeken confessed that he believed that Emperor Frederick would not have given him the diary if he had thought it would be published. Prof. Geffeken made extracts from the diary for his own use, never thinking that the Emperor Would die before himself. His object in publishing the extracts was to show that Emperor Frederick was a noble idealist and a moving power at the foundation of the empire. On comparing the abstracts published with copies of the diary in the possession of the Government, it appears that the manuscript from which Geffeken copied has disappeared without leaving a trace. The widow of Von Storche and the novelist Freytag are summoned to prove that the late Emperor Frederick never contemplated a violation of secrecy, which is the basis of the charge of treason. The latter is treated under six heads, as follows: First, the origin and constitution of the Empire; second, relations with the Vatican; third, with Russia; fourth, with England; fifth, with Luxemburg and the guaranteeing powers; sixth, with Belgium and France.

The principal leaders of the organization were Eagan and Brennan, Dr. McAllister, John Lavey and John Doran. About 1879 a number of delegates, including John O'Comnor, John Devoy and Gen. Millen came from America. Witness attended a meeting in Foresters' Hall, Dublin, at which John Devoy represented the American council. Gen. Millen inspected the military organization and arranged for arms to be provided and expenses paid. At another meeting in the Rotunda, Davitt, Parnell, Eagan, Biggar, Dilion, Brennan and Harris attended. Curley attacked Davitt for not adhering to the principles of the organization. After the meeting witness was told of circles not opposed to the League, which would organize the Fenians in the county and supply them with arms. Witness said he had forgotten a portion of the Invincibles' oath, but the principal part was to assassinate the Viceroy and the whole executive of Ireland. The invincibles received money from the League, Egan, Byrne and Tynan paid some to Daniel Delaney, Mullet and Brady. Witness was deputed to watch the movements of Forster, at that time Chief Secretary of Ireland. On cross-examination by Sir Charles Russell, the witness admitted that when 17 years old he was sentenced to penal servitude for five years for highway robbery. He enrolled himself with the Fenians on the same night he left prison. When he was accused of the Phoenix Park murders he gave the authorities all the information in his possession. The Fenian organization, he declared, was never an assassination society, except in cases where some-body informed against them. The Fenians sought to fight openly, and were very different from the Invincibles. He knew Egan. Brennan and Byrne to be Fenians in 1876. He admitted that he never met them among the Invincibles, but knew they were leaders of the Invincibles through Carey and others. Witness stated that he was sentenced to death for complicity in the Phoenix Park murders, and Lord Spencer commuted his sentence to life imprisonment, which he is now undergaing.

It is dated, at the town of Bonalya Muretia, August 17th, and is addressed to the Arab Shelk Tippoo Tib, whom Stanley left in charge of affairs while he pushed forward to Emin Pasha's relief. The letter is plentifully besprinkled with salutations and professions in oriental terms of speech. Aside from this the letter contains the following information: Stanley is in good health with a party

white men looking for Emin quite well, and other white man, Casati, also well. Emin was bountifolly supplied with cattle, sheep, goats and food of all kinds. He was very liberal, and gave Stanley's men many presents. Many of Emin's soldiers were ready to follow Stanley, but he told them to remain till he returned from Vanbungan. Stanley left all the white men behind except his servant, William. Stanley asks Tippoo Tib what he is going todo, and suggested that he would like to have him go with him, if agreeable, as they both had been over the road twice, and know the route well. Stanley says he will wall 10 days for him: then move forward slowly, going to Big Island next.

Gov. Waterman today granted a full pardon to James B. Young, convicted of murder in Yolo county in 1883 and sentenced to life imprisonment. The Governor says: "Evidence was submitted in the case to show conclusively that the crime for which this man was convicted was committed in self-defense, but at the time of the trial testimony, which has since been proven false, was introduced implicating the prisoner in other crimes, and so perverted the facts that the jury found him guilty of murder."

### California Waukesha! PURE WATER!

The CORONADO BEACH COMP'Y

Made a very valuable and important discovery while investigating the water supply of the Otay Valley, San Diego county. They came upon a series of living springs, the water of which has similar properties to the celebrated WAUKESHA WATER,

WAUN. USHA WATEK,
Clear, sparkling, agreeable to the ove
and refreshing to the taste; one spring
already yields 5,000,609 gallons per day,
and other springs can, by development,
be made to yield equal quantities.
This water has been piped to South
San Diego, Coronado Heights, and Coronado Beach, and used with the utmost satisfaction and favorable results. AN ANALYSIS

Made of this late discovery by the celebrated chemist, C. Gilbert Wheeler of Chicago, shows that it is exceptionally pure, and is possessed of highly medicinal qualities, which act as directly and favorably on all kidney troubles as

THE WAUKESHA WATER. The above is fully, barne out by the result of its use for several months among the guests of the Hotel del Coronado. Many severe cases of kidney disease among elderly people have been greatly improved, and others completely cured.

Cheap Lands. Goed Lands. Prices and Terms to Encourage Settlers.

So much has been said and written about the high prices for ordinary farming and fruit land in Southern California that many Eastern people think that mo good land can be had at less than \$200 per acre in any good locality. But if you will call at the headquarters of Simi Land and Water Company you will find that you can buy well watered stock ranges at \$5 to \$15 per acre, and every one of these ranges contains more or less good farming ranges at \$5 to \$15 per sere, and every one of these ranges contains more or less good farming land. You can buy first-class valley lands for \$30 to \$75 per acre, and small tracts of 10, 20 or 40 acres, for fruit farms, at about the same price. Colonies who want from 1000 to 5000 acres can be placed on fine lands, suitable for dividing among their members, at \$5 to \$40 per acre. This company cares nothing for booms, and asks no inflated prices for their lands. We own nearly 100,000 acres, and have a perfectand undisputed tife. The object is to furnish good lands, to actual actilers, at prices within reach of any who can buy land at all, and on terms which will enable men of moderate means to acquire homes in as attractive and healthful, part of Southern California. It was finally opened, when Miss Peek was recognized standing in the middle of the room, fully dressed in her riding habit, but hatless, while the occupant of the room a young man whose name is said to be McCurdy, was found in a decidedly airy costume. The officers asked the young woman what was the matter, and she said that she had been enticed up into the room by a man named Bailey, who had immediately run out and locked the door. Miss Peek was greatly agitated, and acquised McCurdy of threatening her with yiolence, which, however, he denied. After some talk Miss Peek was taken to her friends, who saw her to the Westmiaster, where she had rooms. It is a rather peculiar case, and caused considerable talk, but no arrests were made. but no arrests were made.

OUR PREMIUM

HIGH-ARM

SEWING - MACHINE!

TESTIMONIALS:

"GIVING PERFECT SATISFACTION."

J.W. Ross, Pasadena, writes: The Timeswirror Sewing-machine is: giving perfect satsfaction; in my opinion it is as good as any
machine. I have not done any heavy work

"RIGHLY PLEASED WITH IT."

Mrs. Edwin Brown, Los Angeles: In reply o yours of 28th would state that I am highly eleased with the Premium Sewing-machine I received with the Minaon. Gives every enfaction; so easy to learn how to manago; itees such excellent work; in fact cannot raise it too much, and would not take twice the amount it cost me.

THE MORE WE USE IT THE BETTER WE LIKE PT. Mrs. S. A. Ware, Prasadena: I have used your sewing-machine since last July. The more we use it the better we like it. On fine and heavy work it is spiendid. We have tried the at sohment. In fact it goes ahead of your advertisement so far.

"LIKE IT BETTER THAN THE \$125 SINGER."
Joseph Wilson, Los Angeles: The machine
gives entire satisfaction. My wife likes it
better than the \$125 Singer that it has replaced.

"GIVER GOOD SATISFACTION."

S. W True. East Los Angeles: We have the High-Arm Machine and use it for light family sewing. It gives good satisfaction.

RUBS SMOOTH-AND SEWS EVERYTHING BUT "RUSS SMOOTH—AND SEWS EVERLYFRING BUT BUTTORS."

William P. Wade, Los Angeles: The repor of the chief engineer of the sewing department of my demestic cestablishment is to the effect that the sewing-machine lately furnished by you for \$22 arrived in good order and in due time, and has given entire estisfaction. It runs lightly and with very little noise and performs to perfection all kinds of sewing work with the exception of buttons. [When the freight is paid to Los Angeles by the Times-Mirror Company the price is \$25.58.]

"TRIED 'EN ALL AND LIKES THE MIRBOR MA

"TRIED 'EM ALL AND LIKES THE MIRBOR MA-CHARS ENER."

William L. Price, 28 Temple street, Los An-geles: My wife tried several \$75 machines, and chose the Mirror Premium Sewing-ma-chines as an equal to the bost in the market, for one-fourth of the money. It is perfect in all particulars, and admired by all whe see it. My wife has been using it several months, and we both cheerfully recommend it to the pub-ile as seprecented.

THE HIGH-PRICED ARTICLE."

C. H. Spencer, Los Angoles: Having sold hundreds of the lemington Sewing-machines for 350, which you are now offering with the WHELLY MIRHOR at \$22, \$455,50 when freight is paid to Les Angeles]. I wish to say that the machine you effer is identically the same as the high-priced article, both as to material, workmanship and capacity. Being a resident here and an experienced sewing-machine man, I will take pleasure in instructing any one in working the machine, in this place or vicinity.

working the machine, in this place or violatity.

"I'm DELECTED WITH IT."

Mrs. J. W. Stringfield. Pomona: The High arm Mirror, Sewing-machine came in good time, in excellent condition, without soratch or blomish, and I am delighted with it. We believe the machine is all that you recommend it to be, and think it a rare opportunity for those who may want a machine to got a fust-class one other.

"PREFECT IN EVERY RESPECT."

Mrs. E. C. Cranston, Norwalk: The High arm Fremium Machine arrived in prime condition, and is perfect in every respect. Freight \$2.56, with first cost added, making \$22.56 for an good a machine as is usually sold through

8. M. Shaw, Passdena: I can say in regard to the machine that it is well liked. It runs light and easy, and dees its work well. It is a very cheep machine at the price you fur-nish it.

"BQUAL TO THE REST SHE EVER USED."
William T. Parcel. Compton: The High-arm
Sewing-machine ordered from your company
was received in good order, and Mrs. Parce
tays it is equal to the best of any other kind
she has ever used. "PROVES SATISFACTORY."

W.F. Beadley, San Gabriel: The sewing machine we received through your office proves satisfactory.

"WEST TRINKS IT THE BAST SHE SVER DEAD."

J. W. McLellen. Tustin City: We received
Premium Sewing-machine through your office,
and my write thinks it the best she ever used;
consequently are well pleased.

"BUTERIOR IN SOME RESPECTS TO THE REST."

8. A. Mattison, Los Angolos: My wife and saughter are well pieased with your Times-Mirror Sewing-machine. They have used several of the best makes of machines, and yet say your machine is superior in some respects a those they have used, and in no way infortor. They were at first afraid, as many are, no doubt, that it is too cheap to be first-class, but are new satisfied that it is as good as machines costing three or four times as much.

"EIGHTENED THE SCREW ARD SHE RURS ALL.
RIGHT."

L. A. Myers. Newhall: Yours of the 1st inst.
received. Will say in reply that soon after I
wrote you I discovered have not the

AT MANUFACTURERS' PRICES.

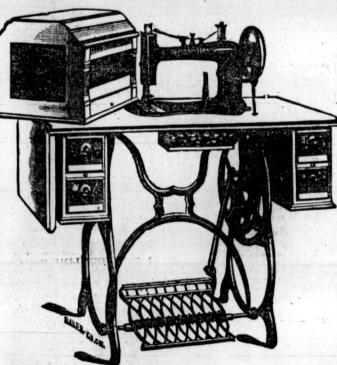

"MIRROR" PREMIUM THE High-Arm

Half Cabinet, Five Drawer, \$60 Machine,

-FOR-

\$25.50 =:= \$25.50

With Copy of the WEEKLY MIRROR One Year.

The manufacturers claim for THS PREMIUM that it has been improved and simplified it all its details by the best mechanical talent in America, who, with unlimited resources at their command, have combined only that which is practicable and dispensed with all complexed surroundings generally found in other machines.

It is the simplest machine, having the fewest parts, all strong, and with case-hardent bearings. Being free from complication it is easily caref for, never gets out of order, and always ready for use. The most inexperienced can readily manage it. It has all the moder appliances and conveniences that go to make up the sum of excellences, successfully combing simplicity, durability, speed, arrength and beauty, producing a machine unequaled for ease of management and capacity for wide range of work.

### PREMIUM HIGH-ARM

Is light-running and noiseless, uses A STRAIGHT, SELF-SETTING NEEDLE, and make the double-thread "Look Stitch." It is the perfection of mechanism for hemming, feiling binding, cording, braiding, seaming, tucking, ruffling, gathering, embreidering, hemstite ying, quitting, etc.

It is adapted to every variety of sewing, from the lightest muslins to the heaviest cictha and will do a greater range of work than any other machine.

The woodwork is unique and attractive in style and substantially made from well seasoned and carefully selected material. Its elegant finish and rich trimmings are in good taste, and sarmonize with the excellent workmanship of the machine.

Far more handsome and ornaments than the ordinary style of woodwork, it is at the same time of equal durability, utility and good finish.

WARRANTEE—The usual They-year warrantee is given—to us by the manufacturers, and we in turn guarantee every machine to give full and entire satisfaction.

### NO RISK WHATEVER.

So great is our confidence and knowledge of the superiority of the PREMIUM HIGH.

ARM that we further agree with every purchaser to REFUND THE MONEY in case full satisfaction is not given by the machine is every particular after a month's trial. Tailors, Prosamakers, Seamstresses, manufacturers of clothing, shirts, skirts, corsets, umbrellas, etc., will find one of its best recommendations is its special adaptation to their wants and range of work.

The Automatic Tension.

When once properly regulated, will rarely need to be changed, and as a general rule, the whole range of family sewing can be done without any change of tension whatever. This result is obtained by nicely adjusted springs, that will accommodate themselves to the size of thread used.

### OUR CLAIMS FOR SUPERIORITY

ARE AS FOLLOWS:

A Device whereby the bobbin can be wound without running the machine saves the ng work and attachments while the bobbin is being filled. A Scale for Regulating The length of stitch, which enables the operator to A Spring-Tension Cylinder-Shuttle, Rolding a bobbin that carries a but one hole to thread through, making it the most easily three led shuttle in use. The tension may be changed without removing the shuttle from the machine.

The Double Feed of without removing the shuttle from the machine.

The Double Feed of werk than any other. It has great power and never fails to perform its duty—will feed the lightest and heaviest goods with equal precision, and will cross seams and hard places without changing lentgh of stitch or missing stitches.

Light Running. On account of the simple mechanical devices employed in its concline, and is almost noiseless. It is the simplest EASIEET OPERATED, best made and most elegantly ornamented machine in the world, combining every requisite to produce perfect work.

Inviting a practical test of this machine, we distinctly claim for it a great superiority in plan, material, workmanship, and in its performance. It is unquestionably the most popular machine now in the market.

-THE OUTFIT .--

hach machine is supplied with the following outfit: One Hemmer and Feller (one piece) Iwelve Needles, Six Hobbins, One Wrench, One Quilting Gauge, One Screwdriver, Oil Casle and Thumbsorew, and a Book of instructions. The following extra attachments are also furnished free: Ruffler, Tucker, Binder, Set of Wide Hemmer and Shirring Plate.

The book of instructions is profusely illustrated, and answers the purpose of a competent teacher. tacher.

Machines are shipped as fast freight, unless otherwise ordered; we paying freightage to Low Angeles, and purchaser paying from Los Angeles to his home.

Sewing machine agents sell this machine for \$55 and \$60; \$25.50 buys one from us, with year's subscription to the WEEKLY MIRROR is addition. Subscribe with your local agent

## ANNUAL TRADE NUMBER,

--- CONTAINING-

A COMPLETE REVIEW OF THE YEAR.

Fifty-six Large Pages. Equivalent to a Two Hundred Page Book.

The Annual Trade Number of THE TIMES, now ready, is the most complete and in teresting publication of that character ever published in Los Angeles.

NOTABLE FEATURES—It contains a business review of the year, embracing a great mass of valuable facts bearing on the city and county; a thorough exposition of our natural resources—mineral, vegetable, commercial and climatic; a review of the rise and progress of the boom, with solid proofs that the country is now in better condition than it was during the height of the real-estate excitement; a carefully complied exposition of the varied inducements which Southern California offers to the health-seeker, the homesceker and the tourist, besides a number of interesting and valuable special articles on pertinent subjects. It contains more solid information about the country than could be crowded into the compass of a hundred long letters, and for a few cents and the expenditure of a few minutes' time in writing the address you can send a friend more information than you could write in a month, even if you had all the facts at hand. For a dollar you can supply ten families in the frozon East with information that my lead them to Join the army of pilgrims to Southern California, to their own and this country's advantage. Thus, whether viewed from the standpoint of friendship or self-interes it will be seen that no better use can be made of a dollar than by purchasing the rewithten copies of the great Annual Trade Number of THE TIMES. Not one-tenth of the pleasure can be bestowed in any other way for the same amount of money.

A correspondent at Glendora says that the Glendora Company's prospect well is now down 1100 feet and water is within 100 feet of the surface. The company proposes to go down 2000 feet if it do es not strike an artesian flow at Jess depth.

The Hoff children, Herman and Alice, were found wandering about the streets again last evening, and brought to the police station, where they will be kept until the father calls for them. It is probable that something will be done for the children during the week.

Mansur, John a, Turkish paddler

Mansur John, a Turkish peddler, was trested on Flower street, yesterday aftersoon, by Officer Maguire, for pursuing his avocation without having first provided himself with the necessary license. He was locked up, and will explain his case before Justice Lockwood this morning.

The latest move in the context for Health

The latest move in the contest for Health Officer was the effort to get the Iroquois Club to pass resolutions favoring Thompson as against Reese. The matter did come up and was discussed, but no resolutions were passed in favor of one or the other, betther of them being members of that organization.

J. T. Wilson, who is wanted for burglary, was run in yesterday afternoon by Detective Russell, who caught his man down on Alameda street, between 5 and 6 o'clock. Ab Ling, a Chinaman, who is also wanted for a burglary committed some time ago, was also run in, having been captured by Officer Miller in Chinatown about 6 o'clock leat avening.

Officer Nixon came across a couple of men on Alameda street yesterday morning trying to dispose of a couple of sets of double harness. As the men could give no good explanation of how the harness came into their possession, they were arrested. They gave the names of Joe Turner and John Doe, or Crist. The harness is at the station, awaiting an owner.

It might be well to state that the accommodations for caring for infants at the police station are very poor. This hint is thrown out for the reason that several cases have been heard of where persons who hould know better have advised that this isposition be made of babies who had ost one or both parents.

Charles Johnson, a hard citizen, yesterday morning stole a pair of blankets belonging to his partner. He was arrested on Alameda street by Officer Appel and taken to the police station, where he was locked up on a charge of petty larceny. Later he was taken before Justice Lockwood, who, after listening to the facts, sentenced him to 30 days' imprisonment in the County Jail.

OUR WINDOW DISPLAYS.

One of the most important and desirable displays that has been in our windows for a long time appeared yesterday, and the articles on sale today consist of the conforters.

Never since we've been in business have we made such a grantic sale of conforters as today's. We start in at 84c for a comforter that we have sold hundreds of bales of at \$1 a piece. You are saving just 46c in buying this comforter. Our next, at 84c, is a grade that has sold at \$1.55. The next, at 74c, we sold at \$1.50. The 84c comforters we sold at \$1.75. The next comforter on sale will be the 94c. Then \$1.45, \$1.14, \$1.24 and \$1.24 which are handsomely covered with fine chint; worth \$2.75. There will be no limit on these goods. We have an overwhelming stock on hand that we do not wish to carry over. We put the above prices on the goods—unheard of in this or any other market—and by nightfall this of the conforters at suspicious prices.

At our pence sale today we will distribute four-button, scalloped top, embroidered back

soft kid. serviceable and dressy. We have a full line, never shown before, and opened specially as an attractive feature of our pence sale.

EXTRA SPECIAIS TO GLANCE AT WHEN GATHERING ACORNS.

Ex-Inch Plaid and Checked Cioths, 65c.

This is an entirely new line rece ved yesterday, all sizes of checks from pinhead to large plaid. The price that we mention today is less than these goods can be manufactured at. The mill price on these goods in 100-pice lots is \$1 less 10 per cent., making the first cost 90c, and never retailed anywhere in the United States under \$1 to \$1.25 a yard.

CLOTHING DEFARTMENT.

Men's Suita, \$5.95.

A special drive in clothing today is a man's all-wool suit at \$5.96, that an't be produced in Los Angeles or anywhere in the known world under at least \$7.50, and in the world of clothers you will pay \$10 for it.

Boys' Corduroy Suits, \$3.18.

It's but a short time ago when you paid \$5 for the identical suit at the People's Store, and then we were selling it at least \$1.50 less than any one cless. The new price, \$3.13, shows what enterprise in business can do for a public, and the wedge that our sledgehammer drives into high prices.

Men's S.1k Faced Overcoats, \$4.95.

Men's S.1k Faced Overcoats, \$4.95.

If you don't think our prices on clothing are right, come in and see this coat and see what a coat you can buy for \$4.95 at the price we far you would have you'll imagine it the right price for these goods; overstocked in men's underwear.

All-wool, fano, striped shirts and drawers, 79c. It's a pity to see these goods go out of the store at such prices—their cheapness prevents their appreciation; \$1.50 apiece, and you'll imagine it the right price for these goods; overstocked in men's underwear.

## FEW POINTERS!

For Harbingers of Stagnation and Depression in Trade!

TIS FOREIGN TO US.

Read the Following Sworn Statement Subscribed Before G. A. Dobinson, Esq., Notary Public:

10S ANGELES, CAL., JANUARY 16. I HEREBY CERTIFY, since my opening in this city in 1832 each year up to 1886 shows a large increase in sales over the preceding year, and for the year 1887 the increase over 1886 amounted to over one hundred thousand dollars (\$100,000). The year 1888, over 1887, shows the remarkable increase of fifteen and seventytwo one hundredths per cent. (15.72). This increase, in a Presidential year, ever a large volume of business, with the general depression in real estate and the complaints made in all lines of business, speaks volumes in

favor of a house built upon the principles of one price and cash. For the present year we have increased our advertising account, made extensive improvements, resolved to put forth extra efforts, and expect the natural results of an increase. We are building up. We have neither J. T SHEWARD. the time nor the inclination to complain. [Seal.] G. A. DOBINSON, Notary Public, Los Angeles County, Cal. Subscribed and sworn to before me this 16th day of January, 1889.

OUR GREAT SALE OF CALICOES!

### On last Monday, attended by the gratuitous distribution of the SOLID SILVER DOLLARS!

Was an immense success until the rain put a "damper" on it.

To the many who were prevented visiting us in the afternoon of that day we announce a continuation of this remarkably novel sale.

SATURDAY NEXT, the 19th, we will place on sale the balance of the thousand pieces

Best Standard American

At Same Price as on Monday Last,

8 1-3c Eight and One-third Cents Per Yard. 8 1-3c And to every purchaser of 36 yards of print at 8te per yard, three dollars' worth in all, we will furnish a year's subscription to "The Delineator," published by the Butterick Publishing Co., New York, free, gratis, for nothing, and as a guarantee will present each customer with a receipt for the same. To the many anxious inquirers for the "MYSTERIOUS ENVELOPES" we would say, they were not all given out on Monday, and the balance will be given to each purchaser of the required amount of calico, together with the year's subscription to "The Delineator."

GREAT ANNUAL SALE

LINENS

# HOUSEKEEPING GOODS

Our great annual sale, which we inaugurated last Monday with such pronounced success, is still in progress, and continues for the balance of the week.

Those who were unable to attend this sale should not overlook its salient points and the exceedingly low price offered.

Our combination sale of

Embroideries and Hand-made

Linen Laces is still on the boards and

affords a rare opportunity to appreciative buyers.

## TRADING BY MAIL.

We invariably reserve a portion of goods offered at special sale prices for our out-of-town patrons. Our Mr. Brennon, in charge of our Mail Order Department, gives his best and undivided attention to the interests of those intrusting business to his care.
